

Proposed Loft Plan

Proposed Loft Section
Dormer

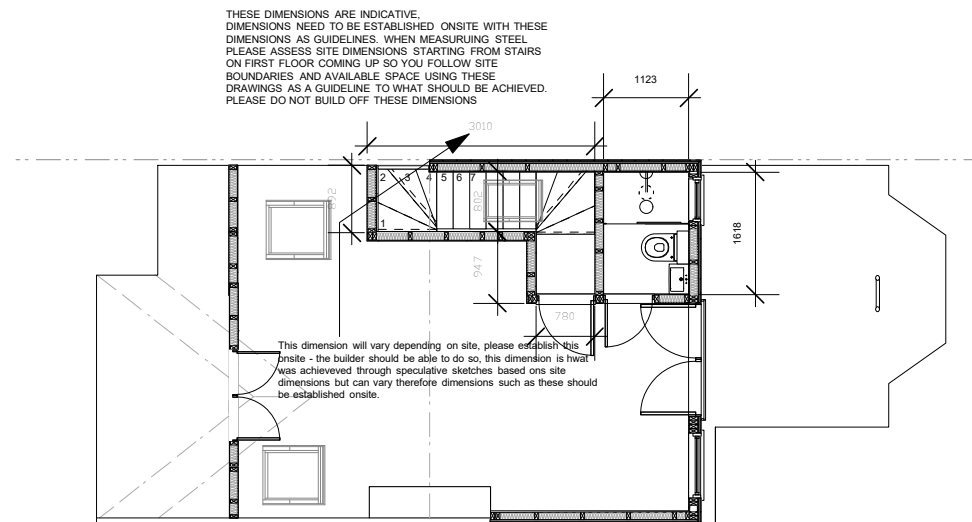

Proposed First Floor
Stair Layout

Proposed Section
Rear Elevation

The Boundaries of the loft conversion do not encroach on the boundary of the neighbours. The Outer most part of the loft in either side of the boundary rests with in the boundary of the property in this application.

Proposed Loft Plan

THESE DIMENSIONS ARE INDICATIVE. DIMENSIONS NEED TO BE ESTABLISHED ONSITE WITH THESE DIMENSIONS AS GUIDELINES. WHEN MEASURING STEEL PLEASE ASSESS SITE DIMENSIONS STARTING FROM STAIRS ON FIRST FLOOR COMING UP SO YOU FOLLOW SITE BOUNDARIES AND AVAILABLE SPACE USING THESE DRAWINGS AS A GUIDELINE TO WHAT SHOULD BE ACHIEVED. PLEASE DO NOT BUILD OFF THESE DIMENSIONS

This dimension will vary depending on site, please establish this onsite - the builder should be able to do so, this dimension is what was achieved through speculative sketches based on site dimensions but can vary therefore dimensions such as these should be established onsite.
